Android - Level 2	01-Jan-2018	3
Android - Level 1	24-Nov-2016	3.90
Cloud Computing - Level 1	28-Jun-2019	3.75

VII. Certifications

IBM Block Chain Essentials

VIII. Project Details

Project Domain	IT
Project Name:	VTI_NWF Sustenance 2019
Client	Verizon Sourcing LLC
Role	Subject Matter Expert
Organization	Tech Mahindra
Location	Onsite:
Duration	Onsite:
Team Size	Project : 4
Functional Skills	-

a) Project Description

The new Verizon Networkfleet Manager app allows you to take the power of Networkfleet with you on the go. Manage your fleet from your smartphone or tablet. Access valuable information about your fleet and its performance using the following

screens in the Networkfleet Manager app. **Map** View the location of your fleet on a map. Choose between map and satellite views. Click on any vehicle icon to view vehicle and driver data. See at a glance if your vehicles are moving, idling or stopped. Track your assets*—like trailers, sheds and generators. Search by physical address, place (point of interest), driver, vehicle and asset. **Schedules** Get information about your drivers. Set up delivery schedules for your drivers, add new stops, re-route drivers and mark stops as complete. Access delivery schedules for your drivers for the current day and the next six days. **Fleet** View a list of vehicle alerts, including battery levels, oil changes, key-on time, mileage

b) Contribution

1. Rebranding of Networkfleet Manager & NetworkFleet Driver Application.
2. 64 Bit Support
3. MapQuest Map Upgradation of Both NWF Manager & NWF Driver Application
4. Resolved Bugs.
